Social Climate

Parent, Student and Teacher Satisfaction with the School *5

Y Schools Queensland is committed to providing a high standard of pastoral care and support for all students. Through small class sizes, personalised learning programs, and regular wellbeing check ins, we aim to ensure that each student's individual needs are recognised and supported.

The safety and wellbeing of young people are at the centre of everything we do. Y Schools Queensland has robust safeguarding processes and procedures in place, including comprehensive child protection policies, rigorous recruitment practices with mandatory Working with Children Checks, and ongoing staff training to maintain a safe and supportive environment.

³ Australian Education Regulation 2023 s60 (1)(b)

⁴ Australian Education Regulation 2023 s60 (1)(g)

⁵ Australian Education Regulation 2023 s60 (1)(f)

We are dedicated to acting in the best interests of every young person in our care and take all reasonable measures to protect them from harm. Our goal is to foster a culture where all students feel safe, respected, valued, and free from abuse, neglect, or mistreatment.

Y Schools Queensland values collaboration with parents and carers and actively seeks their input, particularly in the development and review of Individualised Learning Plans (ILPs). As a Special Assistance School, understanding and responding to the unique circumstances and needs of each student is essential to providing meaningful educational opportunities. While we do not currently operate formal parent representative committees, we welcome feedback and suggestions and consider opportunities for improvement on an individual basis.

Parents / Carers

In 2025, Y Schools Queensland launched a parent and carer survey to gather feedback on key areas concerning their young person's experience at the school. This survey measures outcomes such as;

- Needs of their young person
- Feedback of Y Schools Queensland staff
- Student safety
- Partnership between Y Schools Queensland and parents/carers
- Fairness in student treatment
- Student wellbeing
- Values and culture
- Teaching and learning
- Pathways and skill development

The survey results reveal a high level of satisfaction among parents and carers regarding their young person's experience at Y School. 96% of caregivers said Y Schools Queensland was better than previous schools attended by their young person, and over 87% of caregivers were satisfied or very satisfied with the school.

Y Schools Queensland's commitment to providing individualized, 1-on-1 support in a safer school environment was frequently highlighted by caregivers. The school's tailored approach to both academic and wellbeing needs is deeply appreciated, with many caregivers acknowledging the positive impact this support has on their young person's educational journey including the support to pursue employment.

Students

Y Schools Queensland regularly measures five wellbeing outcomes in the student cohort. The outcomes align with the Y Thrive Wellbeing model and are measured via a survey 3 times per year in February, June and October. The outcomes are:

- Mental Wellbeing
- School Connectedness
- Communication and Cooperation
- Self-Efficacy
- Problem Solving

Of these, the School Connectedness subscale is a useful indicator of the school climate across each campus. The measure comes from the validated PSSM survey, and scores range from 18 (lowest) to 90 (highest) and indicates sense of belonging and psychological engagement. In the October survey, our students achieved a Mean score of 62, which indicates a moderately high sense of belonging and psychological engagement at the Y Schools Queensland.

In the same survey, 86% of students reported having formed at least one positive connection with a staff member or volunteer at the school whom they felt comfortable approaching if they experienced a problem. This is a significant finding, as strong relationships with trusted adults are a key factor in promoting student engagement and wellbeing. In the same survey, 88% of students said that they had made at least one friend at the Y School. As a result of attending the Y School, majority of students (62%) said they feel more accepted for who they are.

Some quotations Ipswich students:

“They were the best teachers I have ever had”

“I loved my youth worker and teacher. My teacher made me feel so comfortable in class and always helped me when I needed it “

“The learning at this school was fantastic and I got the support I needed”

“They believed in me when I couldn’t believe in myself and I believe that’s the only reason I was able to graduate.”

Teachers

The Y administers quarterly surveys to all staff, called the Employee Engagement Survey. This survey measures outcomes such as;

- Engagement
- Work tasks
- Diversity and inclusion
- Empowerment and autonomy
- Collaboration
- Work/life balance
- Career and development

- Rewards and recognition

Last survey administered in 2024, Y Schools Queensland staff achieved Mean scores of 52% in overall engagement (moderate zone), 79% in work tasks, 71% in diversity and inclusion, 63% in empowerment and autonomy, and 62% in collaboration. Furthermore, Y Schools Queensland staff scored 51% for work/life balance, 42% in career and development, and 32% in rewards and recognition.

Student Outcomes

Average student attendance rate (%) for the whole school: *6

Number of possible attendance days = number of school days x number of students in the school

Total number of days absent = sum of all days absent by all students

Total attendance days = number of possible attendance days – total number of days absent

Total number of students	Number of possible attendance days	Total number of days absent	Total attendance days
206	27594	10694	16900

To calculate average attendance rate:

$$\frac{\text{Total attendance days}}{\text{Number of possible attendance days}} \times 100 = \text{Average attendance rate}$$

The average student attendance rate for the whole school in 2025 was 61.25%

Average student attendance rate for each year level: *7

Number of possible attendance days for year level = number of school days x number of students in year level

Total number of days absent for year level = sum of all days absent by all students in year level

Total attendance days for year level = number of possible attendance days for year level – total number of days absent for year level

Total number of students in year level	Number of possible attendance days for year level	Total number of days absent for year level	Total attendance days for year level

⁶ Australian Education Regulation 2023 s60 (1)(d)

⁷ Australian Education Regulation 2023 s60 (1)(d)(i)

Year 7 – 18	Year 7 – 2462	Year 7 – 676	Year 7 – 1786
Year 8 – 26	Year 8 – 3602	Year 8 – 1451	Year 8 – 2151
Year 9 – 32	Year 9 – 4443	Year 9 – 1889	Year 9 – 2554
Year 10 – 54	Year 10 – 7165	Year 10 – 2554	Year 10 – 4611
Year 11 – 30	Year 11 – 3754	Year 11 – 1554	Year 11 – 2200
Year 12 – 46	Year 12 – 6168	Year 12 – 2570	Year 12 – 3598

To calculate average attendance rate for a particular year level:

$$\frac{\text{Total attendance days for year level}}{\text{Number of possible attendance days for year level}} \times 100 = \text{Average attendance rate for year level}$$

Year levels	Average attendance rate for each year level as a percentage in 2025
Year 7	72.54%
Year 8	59.72%
Year 9	57.48%
Year 10	64.35%
Year 11	58.60%
Year 12	58.33%

A description of how non-attendance is managed by the school: ^{*8}

Unexplained absence reports are reviewed by pastoral teams' multiple times per week. Pastoral teams are allocated time to contact parents and carers to understand and document in the school information system (SIS), the reason for absence. The primary purpose of this process is to monitor the wellbeing of each student and respond accordingly. If the parent/carer is not able to be contacted by phone or e-mail, attempts at contact are recorded in the SIS for tracking and process reasons. If contact can't be made after multiple attempts, three non-attendance letters are sent to carers to notify them that the student may be exited if contact isn't made. If no contact is made after the third notification letter, the student will be exited.

⁸ Australian Education Regulation 2023 s60 (1)(d)(ii)

Post-school Destination Information*11

The Destination survey results outlined here represent all the students across the schools. Y Schools Queensland 2025 Year 12 graduates' most common post-school focus was employment, followed by studying, apprenticeship and traineeship. Additionally, 11% of the respondents indicated they are not engaged in any after-school activities, while 20% were uncertain about their plans after school.

Employment

A total of 27 alumni, which represents 39% of the respondents, indicated that their primary focus this year is employment. Among them, 38% are in casual roles, 29% are working part-time, and 12% hold full-time positions. The most reported industries where these alumni are employed include *food services* (21%), *education* (12%), and various other sectors (15%), such as *hospitality, logistics, bar and gaming, factory work, and TV technology*.

Most employed respondents (89%, or 24 individuals) indicated that they hold only one job, while 11% (3 individuals) reported having multiple roles. One of these alumni also plans to volunteer at a local museum this year.

Studying

¹⁰ Australian Education Regulation 2023 s60 (1)(h)(i)

¹¹ Australian Education Regulation 2023 s60 (1)(h)(ii)

15 (21%) respondents indicated that studying is their primary focus for the year. Of these, 40% (n=6) are enrolled part-time and 60% (n=9) full-time. The most common qualifications being pursued are:

- Certificate III (40%) n=6
- Diploma (27%) n=4
- Certificate IV (13%) n=2
- Certificate II (13%) n=2
- Certificate I (7%) n=1

Nearly half (40%) of the students reported that they are also engaged in paid employment alongside their studies.

Apprenticeship/Traineeship

Five alumni reported that they are currently engaged in an apprenticeship or traineeship, spanning a diverse range of industries, including *legal, furniture making, beauty, construction, and automotive and mechanics*.

Notably, two of these alumni are also enrolled in formal study alongside their apprenticeship or traineeship, both undertaking diploma-level qualifications, demonstrating a commendable commitment to building their skills across multiple pathways simultaneously. One graduate is also volunteering in addition to their apprenticeship.

Caregiving Duties

No graduates reported receiving government support for these duties. When asked about their future plans, two expressed an intention to pursue both employment and further education, one planned to seek employment, and one aimed solely to continue with further education.

Volunteering

Three respondents have indicated plans to volunteer with local animal welfare organisations, including the RSPCA, Horses, and Red Collar Rescue, reflecting a strong sense of community spirit and purpose among this group.

Not doing anything

Eight respondents (11%) indicated that they are not currently engaged in any form of work, study, apprenticeship, traineeship, or volunteering. Encouragingly, five of these alumni have expressed an intention to seek employment in the future, with interests spanning hospitality, nursing, and airport-based roles. One graduate plan to undertake a Certificate IV in Nursing, demonstrating a clear sense of direction toward a future career pathway.

For campus specific post-school destination information please refer to the Destination Survey Report 2026, available alongside the annual reports on the school website.
